ARCHIVE REGISTER

An Introduction to the Register of Donated Items and Property

The purpose of this Register is to properly record, and maintain, a list of all items donated to, and acquired by, the Sir Henry Royce Foundation, Australia (SHRFA). It provides for donors' names to be recorded and each item numbered, identified, described, categorised and valued. Items acquired by the Foundation are included in the Register under the category of Property.

The Register has been compiled using Microsoft Excel database which has numerous advantages for this type of application, including the ability to merge, sort and search.

Every item will bear a unique **Accession Number** which will consist of a **Code Letter** followed by a chronological **Item Number** and in some cases a **Sub Number** where a particular donation contains a number of separate items. The Accession Number will be written on the item or attached to the item on a sticker.

Headings used in the Database

Code Letter

A Code Letter is used to identify the source of the item as below:

A	= ACT Branch
F	= Foundation purchases
N	= NSW Branch
O	= Other Sources (with note)
Q	= QLD Branch
S	= SA Branch
T	= TAS Section
V	= VIC Branch
W	= WA Branch

Item Number

An Item Number follows the Code Letter. Items are numbered chronologically at the time of recording the receipt of the item in the Register. Thus an Accession Number might be Q25. This number is assigned by the Archivist when entering the item in the Register. When the donation consists of a number of discreet items a sub-number or numbers are added following an oblique stroke. For example Q25/1, Q25/2 etc.

Collections of magazines or photographs in albums etc should be regarded as one item and sub numbers may be added later when the item is examined and components are identified.

Date

The date of accession, receipt or cataloguing in the form; dd/mm/yyyy.

Donor

The name of the donor in the form; Surname, Christian name or initials.

Category

To aid in cataloguing the collection and to assist in searching the database, a general category is assigned to each item according to the following definitions.

Air - Aircraft or any part thereof including engines and turbines.

Art - Artistic work such as a framed painting, lithograph, etching or drawing, sculpture or any other handcrafted piece of work.

Book - A bound volume, not being a Handbook, Manual, Guidebook etc.

Broch - Brochure, booklet, pamphlet, leaflet, etc giving descriptive data.

Car - A complete motor car, or any part thereof including the chassis and attached coachwork, if any. If the item is part of coachwork not attached to a chassis it should be include as Coachwork.

Coach - Coachwork, or any part of a motor car's coachwork, not being a part of the chassis.

Corres - Correspondence, letters, documents, faxes, telegrams, notes etc,

Equipt - Equipment used to service motor cars, such as hand tools, machines, test equipment and apparatus etc.

Illust - Illustrations, technical drawings and plans, sketches, graphics etc. not being a photograph , work of art, or in a bound form.

Indust - Industrial engines and machinery including Royce made cranes and electrical equipment.

Magaz - Magazine, bulletin, periodical, journal, etc not being a Manual or Report.

Manual - Manual, handbook, guidebook, parts catalogue and other such books generally used for reference.

Misc - Any other miscellaneous item that does not readily fall into one or other of the defined categories.

Models - Models of any kind , including cars, engines, machinery, aircraft etc.

Movie - Movie films and videos.

News - Newsletters, newspapers, paper cuttings etc.

Photo - Photographs, black and white and color prints, negatives, slides, transparencies, albums, collections of photographs, posters (not being Art) etc.

Rally - All material relating to Federal or Branch Rallies such a programs, publicity, events, maps, itineraries etc

Record - Records and lists relating to RROC, such as Membership, Cars etc

Report - A specific report of some kind such as an Annual Report, Report to Shareholders, Report from a Consultant etc

Description

A brief description of the item which identifies its basic form or nature.
